Please use these squares to mark your tshirts. We use a 15" square to cut your shirts. If a shirt has designs on both sides that you would like to use, there are a few options:

1. If both designs are large, we can make 2 squares from that one shirt;
2. If, for example, the front has a small pocket logo and the back is a larger design, we can appliqué both sides together onto one square; or
3. We could combine four small pocket logos onto one square (i.e., four shirt fronts together).
